Flexinet™ Moulded Masks

The Flexinet™ moulded masks feature a flexible netting which ensures optimum shape retention of the mask for a secure seal during long periods of wear.

Designed to provide individuals with a range of quality moulded masks which offer high levels of performance at an affordable price.

- Ergonomically designed to provide the perfect fit for optimum comfort
- Safety Flexible netting retains shape and reduces breathing resistance
- P2 Odour valved Flexinet™ Welding Mask available

Inner seal provides unrivalled comfort and sealing qualities. P2 masks are available in 2 sizes.

- BEQ122-101-000 FFP2-821-Small/Medium

The FFP3 mask minimises breathing resistance and maximises the dust carrying capacity, protection from fine dusts, fibres and aqueous mists. The FFP3 mask is specially shaped without the need for malleable nose clip, it has 4-point suspension with deluxe integral elastic adjustment for superior comfort.

Horizontal Fold Flat FFP2 Valved

The Horizontal mask design guarantees comfortable, efficient face fit. The large surface area gives low breathing resistance and increased dust loading potential. With or without a special low pressure exhale valve which ensures cool interior performance. Available for FFP1, FFP2 and FFP3 protection.
