R51A ORGANIC VAPORS

Approved to help against organic vapors.
Approval # TC-23C-325

R52A ACID GASES

Approved to help protect against chlorine, hydrogen chloride, sulfur dioxide, chlorine dioxide and escape only from hydrogen sulfide. Approval # TC-23C-339

R53A ORGANIC VAPORS, ACID GASES

Approved to help protect against organic vapors, chlorine, hydrogen chloride, sulfur dioxide, and chlorine dioxide. Approval # TC-23C-343

R54A AMMONIA & METHYLAMINE

Approved to help protect against ammonia and methylamine. Approval # TC-23C-329

R59A MERCURY, VAPOR & CHLORINE

Approved to help protect against mercury vapor & chlorine. Approval # TC-23C-1031

R60A FORMALDEHYDE

Approved to help protect against formaldehyde. Approval # TC-23C-505

R51HE-P100

R51A Cartridge with P100 Filter: Approved to help protect against vapors and solid and liquid particulates that may contain oil. Approval # TC-84A-0989

R52HE-P100

R52A Cartridge with P100 Filter: Approved to help protect against chlorine, hydrogen chloride, sulfur dioxide, chlorine dioxide, escape only from hydrogen sulfide and solid liquid particulates that may contain oil. Approval # TC-84A-0990

R53HE-P100

R53A Cartridge with P100 Filter: Approved to help protect against organic vapors, chlorine, hydrogen chloride, sulfur dioxide, chlorine dioxide, and liquid particulates that may contain oil. Also approved for respiratory protection against hydrogen fluoride. Approval # TC-84A-0991

R54HE-P100

R54A Cartridge with P100 Filter: Approved to help protect against ammonia, methylamine and solid and liquid particulates that may contain oil. Approval # TC-84A-0992

R57B-P100

P100 Filter For Dust, Fume & Mist That May Contain Oil: Approved to help protect against solid and liquid particulates that may contain oil. Approval # TC-84A-0987

R61-P100 QUANTUM PLUS

Quantum plus combats against 11 gases and vapors plus all solid and liquid particulates. It does the job of more than five cartridges. Approved to help protect against organic vapors, chlorine, hydrogen chloride, ammonia, methylamine, formaldehyde, hydrogen fluoride, nitrogen dioxide, escape only from hydrogen sulfide and solid and liquid particulates that may contain oil. Approval # TC-84A-0922

R61 QUANTUM

NIOSH approved to help protect against 11 gases and vapors. Approval # TC-23C-1820
